MUNDAY, FEBRUARY 27, 1860

The Franklin county precinct bill has not yet been reported by the committee on Privileges and Elections. It will probably come up to-day or to-morrow. When it does we trust our friends will sustain the Senate bill without amendment, and thereby carry out the wishes of the large county Convention, which petitioned for its enactment. The substitute before the committee will afford no remedy for the grievances complained of, and is a measure more obnoxious to the petitioning for the passage of the Senate bill than the existing arrangement.

The Apportionment Bill passed by both Houses last week was reconsidered in the House of Representatives on Saturday and rejected by a close vote. Another committee of Conference on the part of the Senate and House was appointed and we understand that it will make an early report, perhaps to-day. We trust for the credit of our party, which we think is deeply at stake on this measure, that the Democracy of both branches of the Legislature will come up to their work, and pass this bill promptly when it is reported. Individual interest and ambition should be laid aside and members should vote upon it as a whole without a regard to special cases. It is the constitutional duty of the Legislature to apportion the State at this session, and if it adjourns without accomplishing the work, a heavy responsibility will rest upon those who aid in any manner to defeat the measure. We trust that the Democracy will come up boldly and unitedly to the work before them. We have had already too much division and discord in our ranks and we trust that no more such discredit spectacles will be presented to the people.

The Boundary Line Survey.
A bill concerning the Boundary Line Survey between Kentucky and Tennessee and the payment of the Commissioners and engineers who did the work, passed the Senate on Friday last, and is now before the House. We are not advised of the usual charges made by engineers and surveyors for such work, and therefore are not prepared to say whether the contracts made by the Commissioners with their field party and reported to the Legislature were fair or the contrary but being contracts authorized by the laws of this State, it seems clear to us that the Legislature cannot justly interfere with them or reduce the several amounts to be paid under them. By an act of the Legislature approved 17th February, 1858, for running and marking the boundary line of the State, the Commissioners were authorized to employ engineers and surveyors. We quote a part of the first section of the act, viz:
"Said Commissioners shall have full power and authority, and it is hereby made their duty, to employ a field party, to consist of one engineer, one surveyor, one blacksmith man, and one axeman, and such others as may be necessary."

And section 5, of the same act provides as follows:
"That said Commissioners shall also, in their report, show the time that each of them, and each of the field party, was necessarily engaged in the performance of their respective duties in making said survey, the amount paid to each for his services, and also what future amount, if any, is necessary to pay the costs of the same."
Under this authority the Commissioners did contract with a field party and have reported the respective sums due the members of the party for their services. Yet the Senate has passed a bill making an appropriation for payment, in which the wages of the field party are cut down to about one-half of the amount contracted to be paid them. We cannot think this is just or fair, and we trust the House, when it comes to act on the Senate bill, will remedy the injustice. The duties of a field engineer and surveyor, as we know from experience, are arduous and disagreeable, and to perform them well requires an amount of skill, practice, and learning which should command good pay. If the time and service reported by the Commissioners are correct, the amount allotted to the surveyors and engineers is not unreasonably large, but whether it is or not the question, at this time, simply rests upon the fulfillment of a contract. These engineers and surveyors worked under a contract authorized by law, and the Legislature ought to fulfill the contract on the part of the State, and promptly too, as the men to whom the money is due are needy and have waited long for their pay.

PUBLIC MEETING.—At a meeting of the citizens of Frankfort, called for the purpose of concerting upon some plan for the relief of the sufferers by the Danville fire, upon motion of Rev. B. T. Lacy, Hon. James Harlan, Esq., was called to the Chair, and A. J. James, Esq., was appointed Secretary.
The following gentlemen were then appointed a committee to solicit contributions, viz: R. Gillespie, W. J. Chinn, H. I. Todd, J. W. Prunett, W. B. Holman, W. B. Moore, J. N. Crutcher. The Secretary was then instructed to furnish to the ministers of the different churches the names of the committee, for announcement from the pulpit on the Sabbath. Rev. B. T. Lacy then made a brief but eloquent appeal to the sympathies of the audience, after which the meeting adjourned.

We have been requested to state that the committee will meet at R. Gillespie's at 10 o'clock this morning. We are confident that our people will subscribe liberally to so worthy an object.

Mothers have no longer any excuse for permitting the health of their children to be gradually destroyed by worms in the intestines.—Dr. Bull's Vegetable Worm Destroyer is a sure and prompt remedy. It cannot possibly injure the child, and is so pleasant to the taste and tempting to the sight that children prefer it to candy.

SPECIAL NOTICES.
Mexican Mustang Liniment.
Its wonderful effects and consequent popularity—perhaps no article in the history of *Materia Medica* ever acquired the same patronage, was subjected to the same number of severe and different tests, and met with as few failures as the Mustang Liniment. It has justly been styled the Panacea for all external Wounds, Cuts, Swellings, Sprains, Bruises, or Eruptions on Man or Beast. It is as far a medicine of surprising value, that Physicians are compelled to prescribe it, and from some remarkable cases of *Chronic and Distorted Rheumatic cases* it has naturally attracted much attention from the first scientific minds of the age. No family can afford to be without a bottle of the Mustang Liniment in the house. Beware of imitations.
The genuine is sold by respectable dealers in all parts of the world.
